

DOCTORAL STUDIES TIMELINES

The information contained in this form will be used by CIHR to assess candidates' eligibility for the following funding opportunities:

- Canada Graduate Scholarships Doctoral Award (CGS-D)
- Doctoral Foreign Study Award (DFSA)

Candidates must provide a timeline of their doctoral studies to date using the table below. This timeline must be consistent with the official transcripts provided.

1. Candidates must indicate the calendar year (January to December) in the appropriate field.
2. For each term, candidates must indicate if they were/are registered either full time, part time or if they were/are on leave (or not registered) by selecting the appropriate box.
3. If candidates were/are registered in a combined undergraduate and doctoral program (e.g., MD/PhD) they must indicate in which portion of the program they were/are registered for each term (PhD or non-PhD). An appendix is provided as an example on the following page.

Appendix

The table below provides an example of a candidate registered in a combined MD/PhD program which started in the 2018 winter term.

The applicant started the PhD portion of his full-time in the Winter 2018 term and continued them until the end of the Fall 2018 term. The candidate subsequently undertook an MD portion of his studies during the Winter and Summer terms of 2019, and then went on to pursue another PhD portion of his studies in the Fall term of 2019 (also at full-time).

Below is how the information would be recorded in the table.
